

Assignment 7 – API Gateway and Cognito

4 endpoints:

The screenshot shows the AWS API Gateway console. The left sidebar contains the 'API Gateway' menu with options like 'APIs', 'Custom domain names', 'VPC links', and 'API: Course_API'. The main area displays the 'Resources' page for the 'Course_API' (8563oqbbpa). A tree view on the left shows the resource hierarchy: '/' (GET, PATCH, POST) and '/{courseCode}' (GET). The 'POST' method for the '/' resource is selected, showing its details: ARN 'arn:aws:execute-api:us-east-1:009448477287:8563oqbbpa/*/POST/courses', Resource ID 'mifn6s', and a diagram of the request flow from Client to Method request, Integration request, Integration response (Proxy integration), and Method response. Below this, the 'Method request settings' section is visible, showing 'Authorization' and 'API key required' options.

UserPool:

The screenshot shows the AWS Amazon Cognito console. The left sidebar contains the 'Amazon Cognito' menu with options like 'User pools' and 'Identity pools'. The main area displays the 'User pools' page. A notification banner at the top reads 'Integrate Amazon Cognito with Amazon Verified Permissions'. Below this, the 'User pools (1)' section shows a table with one user pool: 'MyPool' with ID 'us-east-1_PWoe79n6L', created 3 minutes ago, and last updated 3 minutes ago. The table has columns for 'User pool name', 'User pool ID', 'Created time', and 'Last updated time'.

Signin page:

The screenshot shows a web browser window with the Amazon Cognito Signin page. The browser's address bar displays the URL: `https://murwan.auth.us-east-1.amazonaws.com/login?client_id=42sgljfoqo79145nfeenfp2o84&response_type=token&scope=...`. The page features a central white card with the heading "Sign in with your email and password". Below the heading are two input fields: "Email" (containing "name@host.com") and "Password" (containing "Password"). A link "Forgot your password?" is positioned below the password field. A blue "Sign in" button is centered at the bottom of the card, with a link "Need an account? Sign up" below it. The browser's tab bar shows several open tabs, including "Launch AWS Academy Learner", "API Gateway - Resources", "User pools > Amazon Cognito", and "Signin".

The screenshot shows a web browser window with the Amazon Cognito Sign up page. The browser's address bar displays the URL: `https://murwan.auth.us-east-1.amazonaws.com/signup?client_id=42sgljfoqo79145nfeenfp2o84&response_type=token&scope=...`. The page features a central white card with the heading "Sign up with a new account". Below the heading are two input fields: "Email" (containing "murwan-aws@dispostable.com") and "Password" (containing "*****"). Below the password field is a list of password requirements, each preceded by a green checkmark: "Password must contain a lower case letter", "Password must contain an upper case letter", "Password must contain a number", "Password must contain at least 8 characters", "Password must contain a special character or a space", and "Password must not contain a leading or trailing space". A blue "Sign up" button is centered at the bottom of the card, with a link "Already have an account? Sign in" below it. The browser's tab bar shows several open tabs, including "Launch AWS Academy Learner", "API Gateway - Resources", "User pools > Amazon Cognito", and "Signin".
